

# COVID-19

Please Read carefully new corona-virus, first identified in China in December 2019, has caused a major outbreak of respiratory illness that the World Health Organization named COVID-19 in February 2020.

The virus usually spreads from the **CLOSE PERSON-TO-PERSON CONTACT** through respiratory droplets from coughing and sneezing.

The virus may also spread **THROUGH AIRBORNE TRANSMISSION**, when tiny droplets remain in the air even after the ill person leaves the area.

**SYMPTOMS MAY DEVELOP WITHIN 14 DAYS OF EXPOSURE** to the illness.

Only **DESIGNATED LABORATORY TESTS** can diagnose the virus.

## SYMPTOMS OF COVID-19 INCLUDE:

**COUGH**

**FEVER**

**SHORTNESS OF BREATH**

In rare cases, it can lead to severe respiratory problems, kidney failure or death.

## THE BEST WAY TO PROTECT YOURSELF

Wash your hands frequently and thoroughly using soap and water for at least 20 seconds. Use alcohol-based hand sanitizer if soap and water aren't available.

Cough or sneeze into a tissue or flexed elbow, then throw the tissue in the trash.

Avoid touching your eyes, nose or mouth with unwashed hands.

Get a Corona Virus Detection System to scan each person to check for a fever or other symptoms from Athena Security

Stay home when you are sick.

Clean and disinfect surfaces and objects people frequently touch.

Wear a face mask

If you have traveled outside the U.S. in the past 28 days, have a fever, cough or shortness of breath, or had recent contact with someone with fever, cough or shortness of breath, please tell a nurse, doctor or other health care professional as soon as possible. Call before you arrive at the doctor's office or emergency room and tell them about your symptoms.
