

Feature

Why It's Important

<p>DHS 14.2.1 Notification Procedure</p>	<ul style="list-style-type: none"> ▪ Department of Homeland Security Best Practice Notification Procedure ▪ Real-time image transmission of alerts, with alert type to Operator Tablet, a browser, mobile app, and other 3rd party integrations ▪ Defined process and escalation path for necessary notifications to Supervisor 	<ul style="list-style-type: none"> ▪ Accountability for the Security Officer to Secondary Screen the correct person ▪ Redundancy when a problem arises ▪ Speed up real-time investigations to see a front-facing image of all persons coming through the screening portal and escalations
<p>Real-Time Alert Resolution</p>	<ul style="list-style-type: none"> ▪ Alerts can be Confirmed, which can trigger another action ▪ Alerts can be marked False ▪ Alert Resolution List can be customized 	<ul style="list-style-type: none"> ▪ A control to improve accountability that a secondary screening was completed ▪ Data collection on screening process
<p>Evasion Detection, Wrong Direction Alarm</p>	<ul style="list-style-type: none"> ▪ LiDAR and video-based analytic that sends an Alert based on rules ▪ Evading the screening system around the columns ▪ Wrong direction 	<ul style="list-style-type: none"> ▪ Helps ensure all people transit through the plane of detection ▪ Peace of mind knowing that the computer is watching even when the human eye blinks
<p>Turn Around Button</p>	<ul style="list-style-type: none"> ▪ Document the voluntary avoidance of contraband ▪ Self disclosed admission of a weapon 	<ul style="list-style-type: none"> ▪ Document and track the deterrence factor of the system
<p>Volunteer Button</p>	<ul style="list-style-type: none"> ▪ Voluntary handover or divestment of weapon or contraband 	<ul style="list-style-type: none"> ▪ Document and track the deterrence factor of the system when person self-discloses and handovers the weapon
<p>ID Scanning</p>	<ul style="list-style-type: none"> ▪ Quickly pull data from Driver's License, State ID in PDF17 Format, and MRZ ▪ Validate Minor or Not ▪ Validate Expired ID or Not 	<ul style="list-style-type: none"> ▪ Avoid use biometrics with a text-based matching system ▪ Quickly check ID and track, if warranted

Weapon Detection Platform

	<ul style="list-style-type: none"> ▪ Validate Person of Interest or Not 	
Security CRM Database	<ul style="list-style-type: none"> ▪ Create records of Persons of Interest ▪ CRM is a database to track persons of interest for the Security Department 	<ul style="list-style-type: none"> ▪ Easily identify visitors ▪ Detect and deny entry
Smart Alerts	<ul style="list-style-type: none"> ▪ Smart Alert logic reduces the number of repetitive alerts based on rules 	<ul style="list-style-type: none"> ▪ Reduce alarm fatigue and false positives
Pre-Check	<ul style="list-style-type: none"> ▪ Mute alarms on specific recognized person ▪ Pre-load image or add from the Controller Unit 	<ul style="list-style-type: none"> ▪ Known security officers, law enforcement, and others avoid the hassle
VIP/ BOLO	<ul style="list-style-type: none"> ▪ Upload image or add from the Controller Unit ▪ Control the confidence interval ▪ Alert has both the Reference and Captured images 	<ul style="list-style-type: none"> ▪ Provide more personalized experience to VIPs ▪ Another method of screening for BOLOs ▪ Another layer of security
Officer Check-In	<ul style="list-style-type: none"> ▪ Enrolled security officers are asked to walk through the machine on a certain frequency ▪ Check-in available from Operator or Controller Unit 	<ul style="list-style-type: none"> ▪ Metrics on how the checkpoint is staffed ▪ Keep security officers alert ▪ Helps manage the checkpoint
Incident Reporting	<ul style="list-style-type: none"> ▪ Customizable form to input incident report ▪ Security officers can use drop-down menus so that it's fast and high-quality data ▪ Ability to add photographs 	<ul style="list-style-type: none"> ▪ Many incidents are under-reported, and this is an easy way to collect better-quality data ▪ Compare statistics vs. state and national averages

DHS 14.2.2 Prohibited Items Log	<ul style="list-style-type: none"> ▪ Department of Homeland Security Best Practices for Prohibited Items Log ▪ Log items that are confiscated with a photo ▪ Text message patients or visitors of item status ▪ Reminders, authorization code, tracking, and more 	<ul style="list-style-type: none"> ▪ Prevent future disputes with digitizing the chain of custody of items with photographic evidence. ▪ Convenient reminders via text, reduce burden
---------------------------------	---	---

Weapon Detection Platform

Collection and Return Log	<ul style="list-style-type: none"> ▪ Log items that are collected with a photo ▪ Signature Capture 	<ul style="list-style-type: none"> ▪ Document condition of the item with a picture to eliminate argument ▪ Document the pick-up of item with a signature for complete record
Visitor Management	<ul style="list-style-type: none"> ▪ Screen visitors against internal database ▪ Capture Picture and ID ▪ Visitor Self-Service Option ▪ “Digital Visitor Badge” or Printed 	<ul style="list-style-type: none"> ▪ Screen and log who is entering your facility ▪ Make sure BOLOs do not enter or are alerted upon ▪ Faster investigations
Person of Interest	<ul style="list-style-type: none"> ▪ Load quality images and name galleries ▪ Images are kept on the edge device ▪ Configurable alerts for matches 	<ul style="list-style-type: none"> ▪ BOLO and other known people can be more efficiently screened and alerted on by a computer to reduce the cognitive load on the human operator
DHS 15.4.5 Smart Door Logic Access Control	<ul style="list-style-type: none"> ▪ Control and restrict access according to rules 	<ul style="list-style-type: none"> ▪ Necessary control to manage screening process consistently
DHS 8.5 Secondary Screening Check	<ul style="list-style-type: none"> ▪ Secondary Screening Procedure Check with patented A.I. 	<ul style="list-style-type: none"> ▪ Ensure consistent secondary screening procedures
Reporting and Analytics	<ul style="list-style-type: none"> ▪ Customizable Reports ▪ Select Locations, Data Range, and Alert Type ▪ Export to PDF 	<ul style="list-style-type: none"> ▪ Easy Reporting ▪ Graphics and charts help identify trends Visual data is easy to export and share from the platform
Single Sign On	<ul style="list-style-type: none"> ▪ SAML 2 Support, Entra SS ▪ Authenticate, credential, and easy management 	<ul style="list-style-type: none"> ▪ Retract access from one point of truth ▪ Easier for users, and easier for management of users
Platform User Management	<ul style="list-style-type: none"> ▪ Enterprise User Management ▪ Admin can add, delete, and manage user access 	<ul style="list-style-type: none"> ▪ Security can add their own uses without going to IT

Weapon Detection Platform

DHS 8.2 Verification of Calibration Testing and Recording	<ul style="list-style-type: none"> ▪ Testing and Documentation ▪ Easy to follow best practices from the Department of Homeland Security ▪ Maintain log of Verification of Calibration 	<ul style="list-style-type: none"> ▪ Help ensure that the system is working as expected, reduce gross negligence ▪ Reduce risk of malfunction ▪ Reduce breach of duty risk
System Auto Diagnostics	<ul style="list-style-type: none"> ▪ System proactively sends remote alerts on low battery or loss of power ▪ System sends notification if connectivity is lost 	<ul style="list-style-type: none"> ▪ Peace of mind knowing that the system is configured properly and transmitting
Privacy	<ul style="list-style-type: none"> ▪ Blur the image ▪ Send no image ▪ Only send images on certain alert type 	<ul style="list-style-type: none"> ▪ Configurable options

Business Intelligence (BI) Connector	<ul style="list-style-type: none"> ▪ Export large data set into BI ▪ Automate export of data with REST API 	<ul style="list-style-type: none"> ▪ Visualize and identify trends ▪ Combine and compare to find meaningful results ▪ Resource allocation based on data ▪ Easy compliance reporting and auditing
Data Security	<ul style="list-style-type: none"> ▪ SOC 2 Type II Compliant ▪ Data encrypted at rest ▪ Data encrypted in transmission ▪ User-defined delete rules 	<ul style="list-style-type: none"> ▪ Enterprise-level data security
24/7 Technical Support	<ul style="list-style-type: none"> ▪ Available 24/7 Technical support by phone, email, and web ticketing system <p>833-928-4362, Option #2</p> <p>https://support.athena-security.com/support/tickets/new</p>	<ul style="list-style-type: none"> ▪ Athena is here to support customers that operate 24/7, to help ensure your success.
Optional Visual Light Brandished Gun Detection	<ul style="list-style-type: none"> ▪ Spot a brandished weapon at your facility 	<ul style="list-style-type: none"> ▪ Save precious time with a faster response

Weapon Detection Platform

Optional Elevated Temperature	<ul style="list-style-type: none">▪ Screen for elevated temperature with a blackbody for the most accurate reading	<ul style="list-style-type: none">▪ Early warning signs of health changes
